New Business

Textbooks (DMD) John

Want to have a standard charge for TextBook concerned that we would lose the book. There is a system that the student pay \$80 for an online system and would use the electronic books. This is to be used as an additional service, but not a replacement to textbook.

Capri Pants (DMD)

Employee are to dress as industry dresses. What is the definition for Capri pants. Some Capri are very professional – department needs to have a clarification on Capri pants from John Spradling. (table until next)
